MIR-JOS Designers Hats

The first Macedonian designer hats brand, sustainably crafted from curated material surplus and inspired by timeless fashion beauty - fashion with a story.

Our startup is the first Macedonian designer hats brand, committed to reducing textile waste by sustainably designing and ethically producing sophisticated headwear and accessories. By sourcing curated material surplus from local quality factories, we create elegant, timeless pieces that resonate with eco-conscious consumers. Each product is inspired by classic female beauty and crafted with attention to sustainability and storytelling, offering customers a responsible, stylish alternative to mass-produced fashion. We're expanding across the Western Balkans, using both online platforms and partnerships with local fashion and beauty retailers.

Originals Digital

Originals Digital - Simplifying logistics with a digital platform that connects shippers and carriers for fast, transparent, and efficient freight solutions.

Our startup provides a digital logistics platform that revolutionizes the way businesses handle freight shipping. By connecting shippers with a vast network of verified carriers, we simplify the entire process of booking, tracking, and managing shipments. Our platform offers real-time price transparency, instant freight matching, and optimized route planning, helping companies save time, reduce costs, and maximize efficiency.

The problem we solve is the fragmentation, inefficiency, and lack of transparency in the traditional logistics industry. In essence, we are making logistics smarter, faster, and more sustainable.

SUP Club Ohrid

Unique water experiences, eco-retreats, and nature excursions, all while caring for the environment and supporting the local community.

SUP Club Ohrid offers unique water-based eco-tourism experiences, including stand-up paddleboarding, kayaking, yoga on water, and windsurfing. Addressing the lack of sustainable tourism options on Lake Ohrid, we focus on eco-retreats and innovative soft adventures that connect visitors with nature while preserving the lake's ecosystem.

Our goal is to provide memorable, eco-conscious experiences that inspire a deeper appreciation for Lake Ohrid's natural beauty. By combining adventure, wellness, and sustainability, we cater to both locals and tourists, offering customizable packages that promote environmental care and responsible tourism.

EcoNautic Solutions

EcoNautic Solutions transforms traditional boats into eco-friendly, zero-emission electric vessels, offering sustainable marine solutions that reduce pollution and operating costs while promoting clean, solar-powered boating experiences.

EcoNautic Solutions is a startup focused on transforming traditional diesel and petrol-powered boats into eco-friendly electric and solar-powered vessels. Our goal is to reduce pollution, lower operational costs, and support the sustainable Blue Economy by providing clean, zero-emission boating solutions. The problem we address is the environmental harm caused by fossil-fuel-based boats, particularly in freshwater ecosystems such as Lake Ohrid, where many aging boats contribute significantly to water and air pollution. By offering electric conversions, we aim to promote sustainable boating and reduce the carbon footprint of marine transportation.

Distillery for alcoholic beverages from different autochthonous apples

The Prespa region stands as the largest apple producer in the Balkans, with approximately 3,500 hectares dedicated to apple orchards. Despite the vast production, local farmers often struggle with selling their harvest, and a significant portion of the apples ends up in Lake Prespa or discarded in the fields—creating a pressing environmental issue.

Desta addresses these challenges by transforming apples that would otherwise go to waste into premium alcoholic beverages. For every 50-60 tons of apples processed, Desta produces up to 5 tons of high-quality alcoholic products, providing a solution to both the surplus of apples and the region's lack of apple processing industries.
